

# VetraPoint H-Series

Sentech  
Architectural  
Systems

## VetraPoint-H-Series

The VetraPoint-H system is intended for use in horizontal fin applications. The horizontal fins can be designed in glass, steel, or stainless steel. This solution is ideal for openings with a large aspect ratio.

- ✓ **316 stainless steel construction**
- ✓ **Walls up to 40' wide, 100' tall**
- ✓ **Recommended maximum fin spacing: 12'-0"**
- ✓ **Typical gravity rod spacing =7'-0"**
- ✓ **316 stainless steel suspended rod construction**
