VetraFin-G-Series

Sentech's VetraFin G-Series system is a highly transparent system for glass fin facades. The system features simple lines, minimal connections, and a unique look with no exterior hardware, bolts or plates. This proprietary system can be used to design facades with insulated glass with any type of soft coatings; this feature allows for the design of walls with the highest performance values available in the marketplace.

- ✓ **316 stainless steel construction**
- ✓ **Walls up to 50' tall**
- ✓ **Maximum fin height without splices= 30'**
- ✓ **Maximum IGU height with soft (Sputtered) coatings= 12'**
- ✓ **Maximum IGU height with hard (Pyrolytic) coatings= 16'**
- ✓ **Recommended maximum fin spacing= 7'**
